Sprint 4 Retrospective Summary

What worked well this sprint that we want to continue doing?

For this sprint, we worked together very efficiently. Therefore, it resulted us in having a demonstrable product for the Sprint Review. We split tasks in the beginning then integrated each feature per completion. We shall continue this process.

What didn't work well this sprint that we should stop doing?

We concluded there is nothing in this sprint that we should stop doing. Everything worked out smoothly, so there is nothing we should stop doing.

What should we start doing or improve?

Since we have the basic functionality working, we will start adding more functions that are nice to have.
